PROFESSIONAL EXPERIENCE

SVA TECH   **Belo Horizonte, MG**
Full-Stack Developer   **2022-Present**

- Responsible for the development and enhancement of web dashboards that display and analyze analytical data derived from customer videos. Serving large companies such as Vale do Rio Doce and Rumo Logística, as well as smaller clients, with the goal of transforming complex data into clear and useful insights. Utilizing technologies like NodeJS to ensure the efficiency and security of data interactions.
- Experience in agile development of web applications with Angular, creating intuitive user interfaces, and significantly contributing to the agile development process, involving the development team and stakeholders.
- Skilled in technologies such as JavaScript, AngularJS, Git, NodeJS, MongoDB, ExpressJS, and Ionic, focusing on problem-solving, bug fixing, and enhancing system performance.

HYERDEV   **Goiânia, GO**
Web Developer   **2021-2022**

- Development and maintenance of digital solutions for the transportation sector, including corporate websites, tracking systems, and internal dashboards specific to carriers, utilizing TypeScript, Node.js, Next.js, React, Docker, and AWS tools.
- Creation of custom CMS for carriers, enabling autonomous and efficient content updates, significantly improving the management of their online information.
- Implementation of web scraping automations to optimize internal processes of carriers, contributing to operational efficiency and continuous improvement of the services offered.

ILION   **Goiânia, GO**
Customer Support Intern   **2021-2021**

- I played a key role in direct interaction with clients, providing technical support and ensuring effective resolution of concerns and issues.
- Skills in Linux and WordPress were crucial for making minor adjustments to websites and for offering quick and efficient solutions.

EDUCATION

Instituto Federal de Goiás   **Goânia, GO**
